

Connecting to eduroam on iOS Devices at Eastern Education Group.

1. Open the Settings app on your iOS device.
2. Tap on the 'Wi-Fi' option in the Settings menu.

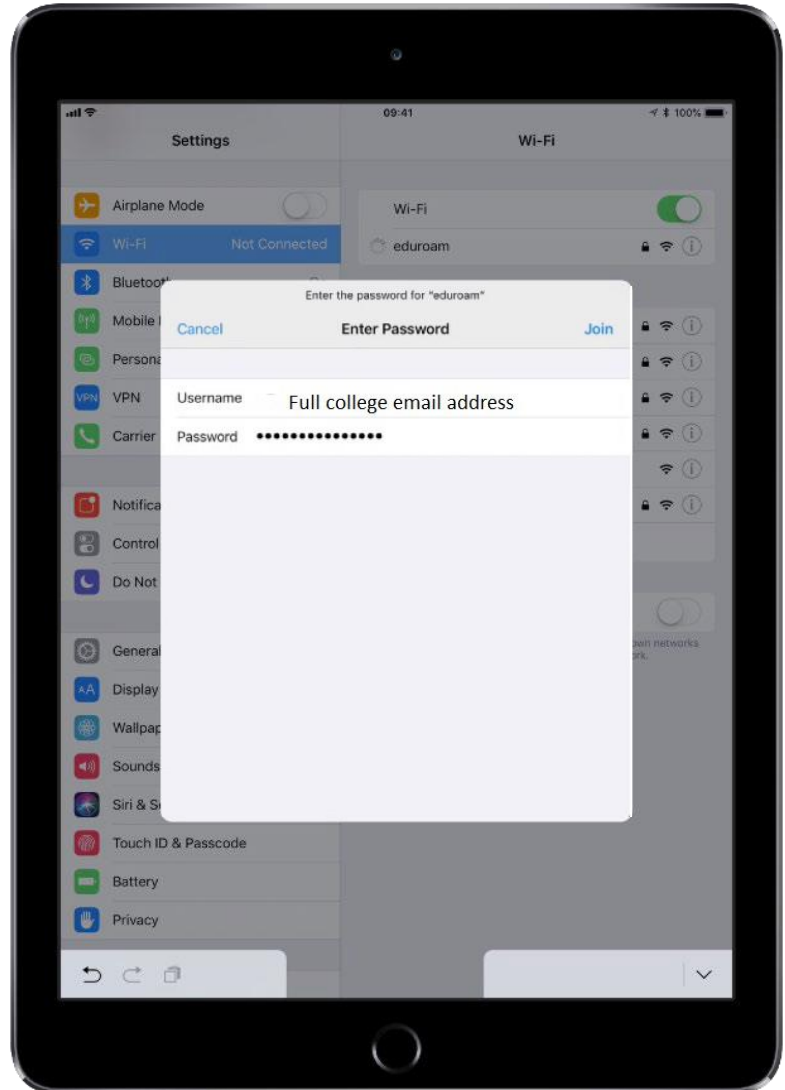

3. Ensure your Wi-Fi is turned on by tapping on the On/Off toggle.
4. Wait a moment for the list of nearby Wi-Fi network names to appear.
5. Tap on the eduroam Wi-Fi network from the list.

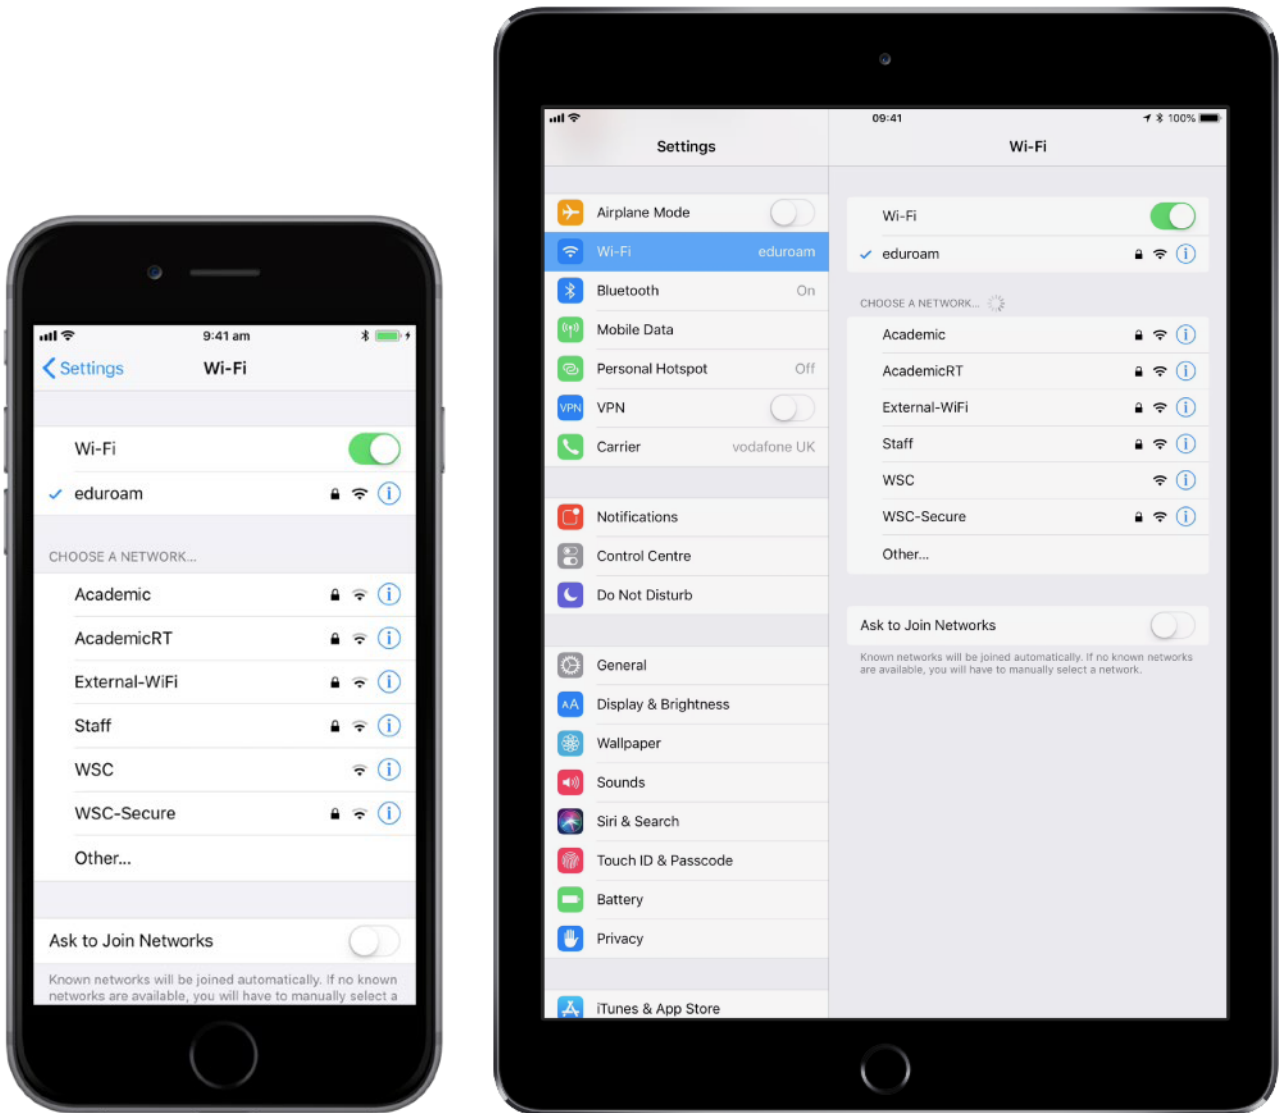

6. When prompted for a Username and Password, enter your full College email address and your password. The email address and password are the same as the ones you use for all other systems and computers.

Then tap 'Join'.

7. You will then be asked to trust a certificate issued Eastern Education Group..
8. You should now be connected.
You should see a tick beside the eduroam Wi-Fi network in the menu.

If you encounter issues connecting to eduroam, please first double-check you are entering your full college email address ending in ac.uk, and that you have typed your password correctly.

If you are unable to login please visit the college's IT Services department for further support.

If you are a roaming user or a visitor from a different eduroam institution, their IT department will be your first point of contact.
